Utah Copper Mine is located at Bingham Canyon, Utah, about 30 miles southwest of Salt Lake City. The Magnitude of current daily production at Bungham can be visualized in the following figures on a recent single day's operation: Tons of ore moved, 105,000. This means 50 cars per hour or nearly one car per minute. Total of material excavated and moved (ore and waste) more than 210,000 tons, or 8750 tons per hour, or an average of more than 145 tons per minute.
